Opening Hours

The lakes are open all year from sunrise to one hour after sunset. In the winter, the ice situation can be followed on our website.

Nørreris Put & Take is situated in a particularly lovely area in beautiful South Himmerland. There is a view of Hjarbæk fjord only 600 metres away as well as woodland, meadowland and a golf course.

The area covers about 4 hectares and consists of 3 lakes that cover a total of approx. 14,800 m². Since there is no vegetation close to the lakes and the grass is mown regularly, the lakes are ideal for fly fishing. Grass carp are put out to control the vegetation in the lakes as well as mussels to clean the water.

It is a family-friendly site, with plenty of tables, benches and shelters where you can eat. A fridge, grills and smoke oven may be used free of charge. The parking area, payment hut, fish-cleaning facility and heated invalid toilet lie close together near the lakes. It is possible to drive a car and park round the lakes, which are invalid-friendly as the shores are mainly flat.

Fish are put out daily during the season. In the small lake, where children under twelve can fish at reduced prices, an extra large number of small rainbow trout are put out. In the special angling lake there are gold trout and large rainbow trout. Occasionally, brook trout, salmon, tiger-trout, brødding (a cross between char and brook trout) and char are also put out. In the large lake, we put out 1-3 kg trout.

Nørreris Put&Take is an ideal destination for family outings, school events and company excursions. We have a pavilion where there can be up to 70 persons. It can be used free of charge if you fish at the lakes. The pavilion can also be rented for special events, for which we can also offer catering, e.g. whole-roasted sucking pig. You are welcome to send a mail to kiøldsen@mail.dk for information about rates, available dates, etc.
