Opening Hours

Opening hours The lake is open all year round, from sunrise until sunset

Engholm Lystfiskersø is situated in a beautiful conservation river valley, with a view of woodland and meadowland as far as the eye can see. The fishing water is top quality, as spring water runs through the lake. This, plus the scenery, has made the place anglers' no. 1 destination. At the lake there are tables, benches and rod-holders as well as a large new invalid-friendly building with all facilities and a large, covered terrace. At the lake there is a play area for the kids as well as a large barbecue grill and bonfire area that may be used free of charge. Rainbow trout from 1 kg to 10 kg are put out. They come from Denmark's leading trout pond farm. This ensures unsurpassed quality and 100% disease-free fish. In addition, smaller quantities of river and brook trout are put out as well as eel. Refreshments as well as various angling items can be bought. At the lake there is a covered fish-cleaning facility with running water. The atmosphere here is designed to suit everyone – the incarnate angler, families with children, senior citizens, kindergarten classes, etc. No limitations on catches
