### Åbningstider

Opening hours: The lake is open for angling round the clock

In the lovely area between Hals and Hou you will find one of the finest angling parks of North Jutland, where you can catch rainbow trout from 1 kg to 8 kg. Fish are put out daily during the season. The lake and its surroundings are extremely child- and invalid-friendly, and since there are a number of trees fringing the lake, there is no irritating wind, making the lake ideal for fly fishing. There are shelters round the lake. And a large, three-star campsite, restaurant and grocer's shop within 150 m. Toilet/fish-cleaning facilities with water at the lake. In the shop the choosy angler can buy fishing tackle, live bait, sportswear, beverages, ice cream, etc. You can rent fishing equipment. How to get there: Take the road north at the roundabout in Hals (towards Sæby) following Strandvejen. After 6 km Lagunen Fiskepark is on your right-hand side. Overnight accommodation: Rent a log cabin down by the lake where four people can sleep. Per day (exc. el.) DKK 400; Weekend (Fri-Sun, excl. el. DKK 1000; Midweek (Mon-Fri, exc. el.) DKK 1,500.
