Opening Hours

You will find Midtfyns Put and Take in beautiful surroundings at Sallingelunde (near Ringe).

The lake is 55,000 m², with extremely clean water. We have planted trees by the lake to provide shelter, which makes it highly suitable for fly fishing.

We put out rainbow trout, brook trout and golden trout every week. The fish weigh up to 11 kg.

At the lake are tables and benches, a grill and barbecue area, covered shelter, cleaning table with sink, toilet, freezer, tables and benches. There is also a covered terrace with benches for 55 people. Good parking facilities close to the lake.

Concessions for children under 12. There is a small play area for the youngest children and primitive camping is possible.

Please contact us in advance if you wish to hold a large-scale event.

We are open from sunrise to sunset all year round. See our website for further information. It is possible to rent fishing rods.
